

## Caring Instructions

Hand-washing is the gentlest method of cleaning an alpaca garment. Follow these four steps and your purchase will give your four legged companion years of luxurious comfort and wear.

1. Gently wash in warm water with a mild soap or shampoo and thoroughly rinse in water of the same temperature. Specialcare must be taken as wet alpaca fabric can weaken and stretch out of shape. Never wring or twist. Gently press excess water from garment.
2. Lay it on a dry towel. Ease the garment back into shape and roll up in the towel. Press to remove excess water and repeat this step with a second towel.
3. Lay the sweater flat to dry on a fresh, dry towel, until thoroughly air dried.
4. Never hang an alpaca sweater as it will stretch the gar-

ment out of shape. Lay flat in a drawer or on a shelf.

**If stains persist:**

Dry cleaning may be the only solution.
